

#1 CLOUD COMMUNICATION SOLUTION FOR G SUITE

Connect everyone. Work anywhere.

Dialpad is business communications for the modern workplace. We're the only business phone system that natively integrates with G Suite to provide a cloud first, mobile solution for the anywhere worker. See how Dialpad and G Suite can make your team more productive and engaged. No desk phone required.

SINGLE SIGN-ON

Never forget a password with G Suite Single Sign-on

DIRECTORY SYNCING

Search existing contacts or create new ones with always-on syncing

INTEGRATED APPS

Quickly access shared Docs, Gmail messages, and Calendar events

DEVICE FLEXIBILITY

HD voice, video, messaging, and meetings from any device, plus integrations with Android for Work.

Desktop

Mobile

Consumer-like usability. Enterprise-grade quality.

Just like G Suite, we believe in putting the user first. We've built the simplest, most enjoyable communications platform on the market. Employees love it. But they're not the only ones. Dialpad makes it possible for IT teams to go live 60-80% faster and reduce support costs 90%—all while leveraging the power of 9 data centers across four continents for speedy, secure, reliable service.

SPIN UP OFFICES IN MINUTES

- Fast user provisioning from G Suite's native directory
- Intuitive user experience for easy onboarding
- No hardware, wiring or PBX required
- Actionable analytics
- Simple call routing and call queue set up

CLOUD FIRST TECHNOLOGY

- Secure authentication with G Suite SSO
- Integrate with Salesforce for CTI, automated call logging from any device, and even log notes from Dialpad
- Cloud first architecture built on the Google Cloud Platform for unlimited scalability and rapid innovation

POWER THE ANYWHERE WORKER

- Provide an amazing user experience, wherever your employees are
- Mobile access to everything: voice, video, messaging, meetings, contacts, emails, documents and calendar
- BYOD made easy, with Wi-Fi, 4G LTE and carrier calling
- Integrates with Android for Work and Chromebooks

Recommended by Google. Built on Google.

Dialpad's founders created Google Voice and now we are redefining voice for enterprise with scale, security, speed, and relentless innovation—all built on the Google Cloud Platform.
