

BUILD AN ANYWHERE IT STACK WITH DIALPAD + OKTA

Connect everyone. Work anywhere.

Your phone number is an essential part of your business identity. You need to access it from anywhere, while keeping your conversations secure and private. Dialpad + OKTA have revolutionized the way employees access communication—providing a cloud first, mobile solution for today's anywhere worker.

SINGLE SIGN-ON

One login for all your cloud apps, across all your devices. Use the OKTA dashboard or sign in through Dialpad via OKTA.

SAML

Use an enterprise-grade security framework that leverages the trusted relationship between OKTA and Dialpad.

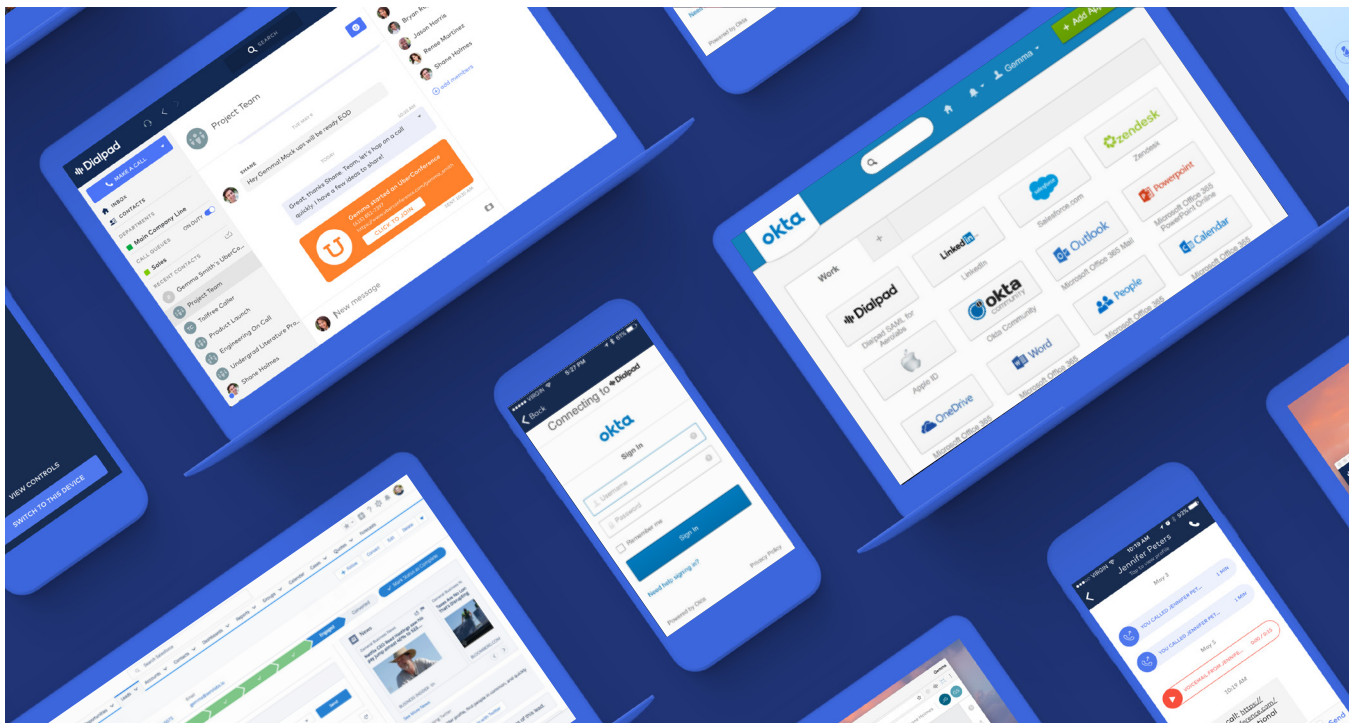

LIFECYCLE MANAGEMENT

Onboard users automatically by triggering provisioning from your preferred productivity suite or HR tool.

The only pure cloud business phone system, now with cloud identity management.

Take your IT productivity to the next level. Dialpad + OKTA enable agile management of deployment and provisioning across the globe while maintaining enterprise-grade security. Dialpad's pure cloud, modern architecture is now integrated with the leader in cloud identity management. For you, that means unlimited scalability, always available services, and continuous innovation.

Welcome to the future of Anywhere IT.
