

CXone Customer Analytics

Your contact center.
Your insights. Your way.

Turn insights into results

Create a data-driven culture where every employee can make better decisions, fast. With consolidated reporting and analytics from NICE CXone Customer Analytics, you can turn insights into results with data that is relevant, easy to consume, and actionable. And with insight at your fingertips, your options are limitless—you have the information you need to grow productivity, improve customer satisfaction, and transform your business.

Now you can drive measurable improvements and deeply understand the customer experience while taking advantage of historical and real-time information, easy customization, and simple and secure access to data. You can even tailor information based on your contact center roles (executive, manager, supervisor, business analyst, and agent) making CXone Customer Analytics both useful and easy to use.

- ✓ Drive decisions with data
 - ✓ Gain insights from every interaction
 - ✓ Deliver actionable intelligence for everyone
 - ✓ Get meaningful results immediately
- 

“

Without real-time information you can't react quickly enough. NICE CXone real-time dashboards help us to keep our finger on the pulse of what's going on.

Turn guess work into precise work in your contact center

CXone Interaction Analytics

Analyze every interaction to understand operational trends and agent performance

Uncover what drives positive and negative business outcomes to continually improve performance

Detect dissatisfaction, even when customers don't tell you

Mitigate risk by ensuring that legal and compliance procedures are being followed

CXone Reporting

Get value out of the box with more than 90 pre-built reports covering typical contact center reporting requirements

Use custom reports to address your unique reporting needs with over 250 predefined metrics and fields

Provide external reporting systems direct access to summary and detail level data via a secure real-time connection

CXone Feedback Management

Unlock detailed customer insights to identify opportunities to improve

Get better results, faster with best practices solutions built in

Get a full view of the customer journey, going beyond just the call center

Help agents see the total impact of their work with unfiltered feedback

Drive decisions with data

Improve the speed and outcome of decisions.

- ✓ Tackle the actual drivers of business outcomes, like customer satisfaction, to create lasting improvements
- ✓ Increase profitability by focusing on the best areas to save or spend for bigger impact
- ✓ Make sure everyone uses the most relevant data to make smarter decisions

Gain insights from every interaction

Use insights from unstructured customer interactions.

- ✓ Analyze every interaction to know where—and how—to improve
- ✓ Boost agent performance by identifying improvement opportunities for individual agents
- ✓ Detect and resolve non-compliant actions quickly - before issues escalate

Turn raw data into lasting impact

Make data relevant and easy to understand, and keep it all secure.

- ✓ Provide data to everyone that is relevant to their roles and clear to interpret
- ✓ Access data directly in real-time for use by business intelligence tools
- ✓ Tailor reports based on your exact needs with point-and-click customization
- ✓ Keep security risks low while providing everyone the information they need

Get meaningful results immediately

Standard reports and dashboards, common user security profiles, and integrated data sources from across NICE CXone are ready when you are.

- ✓ Gain value out-of-the-box with pre-defined reports designed to provide and share the contact center performance metrics you need, with great visuals
- ✓ Lower administration costs with users, security, and other tasks centralized in a common portal
- ✓ Say goodbye to implementing and maintaining data connections to third-party ACDs and other systems

The NICE CXone solution is an astronomical catalyst that will propel your contact center to a level of excellence you didn't think possible.
